As U.S. and Canadian automakers and dealers face bankruptcy and Toyota battles unprecedented quality-control problems, Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. Phil Edmonston, Canada's automotive "Dr. Phil" for more than 40 years, pulls no punches. In this all-new guide he says: Chrysler's days are numbered with the dubious help of Fiat. Electric cars and ethanol power are PR gimmicks. Diesel and natural gas are the future. Be wary of "zombie" vehicles: Jaguar, Land Rover, Saab, and Volvo. Mercedes-Benz - rich cars, poor quality. There's only one Saturn you should buy. Toyota - enough apologies: "when you mess up, 'fess up."

Revealing the definitive history of the entire Mercedes-Benz G-Wagen series. Including SWB and LWB cars, station wagons, vans and convertibles, and with an overview of all the models sold in each of the world's major markets, this book is packed full of information and contemporary illustrations sourced directly from the Stuttgart factory.

A guide to buying a used car or minivan features information on the strengths and weaknesses of each model, a safety summary, recalls, warranties, and service tips.

Lemon-Aid Used Cars and Trucks 20102011 shows buyers how to pick the cheapest and most reliable vehicles from the past 30 years of production. This book offers an exposé on gas consumption lies, a do-it-yourself service manual, an archive of service bulletins granting free repairs, and more.

"Dr. Phil," Canada's best-known automotive expert, invites another driver to come aboard. After forty-six years and almost two million copies sold, Phil Edmonston is joined by a co-pilot for the Lemon-Aid Guide - George Iny, along with the editors of the Automobile Protection Association. The 2017 Lemon-Aid has everything: an encyclopedic lineup of the best and worst cars, trucks, and SUVs sold since 2007; secret warranties and tips on the "art of complaining" to help you get your money back; and new-car buying tips that will save you tons of money by revealing the inflated cost of fancy and frivolous add-ons. Lemon-Aid is an essential guide for careful buyers and long-time gear-heads who don't know as much as they think.

This unique Handbook examines the impacts on, and responses to, economic geography explicitly from the perspective of the behaviour, mechanics, systems and experiences of different firms in various types of industries. The industry studies approach all

This book constitutes the refereed proceedings of the 13th International Conference on Advanced Concepts for Intelligent Vision Systems, ACIVS 2011, held in Ghent, Belgium, in August 2011. The 66 revised full papers presented were carefully reviewed and selected from 124 submissions. The papers are organized in topical sections on classification recognition, and tracking, segmentation, images analysis, image processing, video surveillance and biometrics, algorithms and optimization; and 3D, depth and scene understanding.

Offers advice for prospective buyers of cars and trucks, reveals information on secret warranties and confidential service bulletins, and tells how to complain and get results.

When the mysterious Tatee walks into the renowned Manhattan Tango Studio all hell breaks loose, not a single person stays unaltered: old friendships are challenged and put to the test; seemingly confident women are alarmingly threatened by the novel newcomer's presence; cool sleek men lose their steps, stuttering incomprehensible disobedient words. Unprepared for surreal and outlandish relationships she takes the role of an intrigued observer witnessing the unfolding drama where the dance floor reveals a theatre of the absurdity of human nature. The other stories explore the profoundness of human psyche where joy, suffering, humour and even madness can all be found. Encounter stories about cult escapees, an incompetent lawyer, a liberated husband, a case of mistaken identity and the serendipitous nature of synchronicity.

A lavishly illustrated history of this distinctive city's origins as a settlement on the banks of the Black Warrior River to its development into a thriving nexus of higher education, sports, and culture. In both its subject and its approach, *Tuscaloosa: 200 Years in the Making* is an account unlike any other of a city unlike any other--storied, inimitable, and thriving. G. Ward Hubbs has written a lively and enlightening bicentennial history of Tuscaloosa that is by turns enthralling, dramatic, disturbing, and uplifting. Far from a traditional chronicle listing one event after another, the narrative focuses instead on six key turning points that dramatically altered the fabric of the city over the past two centuries. The selection of this frontier village as the state capital gave rise to a building boom, some extraordinary architecture, and the founding of The University of Alabama. The state's secession in 1861 brought on a devastating war and the burning of the university by Union cavalry; decades of social adjustments followed, ultimately leading to legalized racial segregation. Meanwhile, town boosters set out to lure various industries, but with varying success. The decision to adopt new inventions, ranging from electricity to telephones to automobiles, revolutionized the daily lives of Tuscaloosans in only a few short decades. Beginning with radio, and followed by the Second World War and television, the formerly isolated townspeople discovered an entirely different world that would culminate in Mercedes-Benz building its first overseas production plant nearby. At the same time, the world would watch as Tuscaloosa became the center of some pivotal moments in the civil rights movement--and great moments in college football as well. An impressive amount of research is collected in this accessibly written history of the city and its evolution. *Tuscaloosa* is a versatile history that will be of interest to a general readership, for scholars to use as a starting point for further research, and for city and county school students to better understand their home locale.
