help. By comparing low-income mothers' experiences before and after welfare reform, Judith A. Levine probes women's struggles to gain or keep jobs while they simultaneously care for their children, often as single mothers. By offering a new way to understand how structural factors impact the daily experiences of

In her award-winning book *Harmful to Minors*, Judith Levine radically upended our fixed ideas about childhood. Now, she tackles the other end of life in this poignant memoir of a daughter coming to terms with a difficult father who is sinking into dementia, presenting an insightful exploration of the ways

we think about  
disability, aging, and the  
self as it resides in the  
body and the world. In  
prose that is  
unsentimental yet

While Levine chronicles these developments, she looks outside her family for the sources of their perceptions and expectations, deftly weaving politics, science, history, and philosophy into their

Health Care Off the  
Books, Danielle T.  
Raudenbush provides an  
answer that challenges  
public perceptions and  
prior scholarly work.  
Informed by three and a  
half years of fieldwork  
in a public housing  
development,  
Raudenbush shows how  
residents who face  
obstacles to health care  
gain access to

pharmaceutical drugs, medical equipment, physician reference manuals, and insurance cards by mobilizing social networks that include not only their neighbors but also local physicians. However, membership in these social networks is not universal, and some residents are forced to turn to a robust street

market to obtain  
medicine. For others,  
health problems simply  
go untreated.

Raudenbush  
reconceptualizes U.S.  
health care as a formal-  
informal hybrid system  
and explains why many  
residents who do have  
access to health services  
also turn to informal  
strategies to treat their  
health problems. While

the practices described in the book may at times be beneficial to people's health, they also have the potential to do serious harm. By understanding this hybrid system, we can evaluate its effects and gain new insight into the sources of social and racial disparities in health outcomes.

those in their care. Too many workplaces are driven by cynicism, paranoia, and self-interest. But the best ones foster trust and cooperation because their leaders build what Sinek calls a "Circle of Safety" that separates the security inside the team from the challenges outside.
