Emergency Drills and

Online Library Aircraft Emergency Response Drill

Exercises are essential for airlines and airports to train for, assess, practice, and improve performance in simulated, risk-free environments. Airlines and airports commonly use drills and exercises to prevent incidents and accidents and to protect people and assets in the event that such events manifest themselves.

Emergency drills must be held at least annually and records must be kept.

Emergency Preparedness and Response

The objective of the Safety and Emergency Procedure Training (SEPT) courses is to ensure crew are equipped with the necessary skills to handle any emergency or unusual situation that can occur on-board their aircraft and that they are informed of any new regulations, procedures or equipment.
