Aim High will help your students succeed as language learners in the classroom, with their homework and also in exams. How will it do this? It builds students vocabulary knowledge through a structured and progressive approach. What does this mean? There are over 50 active vocabulary items in each unit, including words from the Oxford 3000™. Students learn the meaning of new words but they also learn how and when to use them for themselves. And these are not just useful, everyday words. They're also introduced to expressions, idioms, phrasal verbs, and so on. Essential language for communicating well in English. As a teacher you'll want to help your students become autonomous learners. In Aim High there are lots of opportunities to prepare for this. In the Student's Book there's a 'Dictionary Corner', with exercises to help them towards learner autonomy. There's also a Literacy Corner to extend

their vocabulary, focusing on selected readers of the right level. With the self-check and review boxes they can see how they're progressing for themselves. A Grammar Reference and Grammar Builder bring together all the grammar and vocabulary for the unit. These allow students to look back over grammar points and review what they have learned.

Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and

bring incredible results, proving that it's never too early to teach someone how to live well.

"In this book, school leaders from instructional coaches to central office staff will find: - A positive, strengths-based focus on learning gains, rather than learning loss - Long-term strategies for improving instruction and increasing achievement - A focus on literacy and numeracy to help all students improve - Short, easy-to-read approach to lasting improvement"--
