Another thing that really helped me grasp the subjects was making my own labs in packet tracer. I would pick a subject, for example HSRP, and then I would just design my own network from scratch and set up HSRP. I also spent time making a big network in packet tracer where I tried to include as many topics as possible.

## Packet Tracer Labs

### **Packet tracer Labs : ccna**

Packet Tracer Network CCNA Security labs CCNA Security labs can be downloaded for Packet Tracer versions starting from 6.1 as this version was the first to feature an ASA 5505 Firewall. These labs allow students to practice clientless SSL VPN, site to site VPN, and firewalling with deep packet inspection feature.

### **Packet Tracer 7.3.1 labs - Packet Tracer Network**

Packet Tracer. Cisco also has a simulator called Packet tracer, specifically created for CCNA Routing & Switching. It's a simulator

# File Type PDF Ccna 2 Packet Tracer Labs

so it mimics the commands and output of Cisco IOS. Everything that is CCNA related is supported but if you want to try something else, it's possible that the command is not included.
