The final book of the Bible, Revelation prophesies the ultimate judgement of mankind in a series of allegorical visions, grisly images and numerological predictions. According to these, empires will fall, the "Beast" will be destroyed and Christ will rule a new Jerusalem. With an introduction by Will Self.

The glitter of 1920s America was seductive, from jazz, flappers, and wild all-night parties to the birth of Hollywood and a glamorous gangster-led crime scene flourishing under Prohibition. But the period was also punctuated by momentous events-the political show trials of Sacco and Vanzetti, the huge Ku Klux Klan march down Washington DC's Pennsylvania Avenue-and it produced a dizzying array of writers, musicians, and film stars, from F. Scott Fitzgerald to

Bessie Smith and Charlie Chaplin. In *Anything Goes*, Lucy Moore interweaves the stories of the compelling people and events that characterized the decade to produce a gripping portrait of the Jazz Age. She reveals that the Roaring Twenties were more than just "the years between wars." It was an epoch of passion and change-an age, she observes, not unlike our own.

The early modern era produced the Scientific Revolution, which originated our present understanding of the natural world. Concurrently, philosophers established the conceptual foundations of modernity. This rich and comprehensive volume surveys and illuminates the numerous and complicated interconnections between philosophical and scientific thought as both were radically transformed from the late sixteenth to the mid-eighteenth century. The chapters explore reciprocal influences between philosophy and physics, astronomy, mathematics, medicine, and other disciplines, and show how thinkers responded to an immense range of intellectual, material, and institutional influences. The volume offers a unique perspicuity, viewing the entire landscape of early modern philosophy and science, and also marks an epoch in contemporary scholarship, surveying recent contributions and suggesting future investigations for the next generation of scholars and students.

NATIONAL BOOK AWARD WINNER • Colum McCann's beloved novel inspired by Philippe Petit's daring high-wire stunt, which is also depicted in the film *The Walk* starring Joseph Gordon-Levitt In the dawning light of a late-summer morning, the people of lower Manhattan stand hushed, staring up in disbelief at the Twin Towers. It is August 1974, and a mysterious tightrope walker is running, dancing, leaping between the towers, suspended a quarter mile above the ground. In the streets below, a slew of ordinary lives become extraordinary in bestselling novelist Colum McCann's stunningly intricate portrait of a city and its people. Let the Great World Spin is the critically acclaimed author's most ambitious novel yet: a dazzlingly rich vision of the pain, loveliness, mystery, and promise of New York City in the 1970s. Corrigan, a radical young Irish monk, struggles with his own demons as he lives among the prostitutes in the middle of the burning Bronx. A group of mothers gather in a Park Avenue apartment to mourn their sons who died in Vietnam, only to discover just how much divides them even in grief. A young artist finds herself at the scene of a hit-and-run that sends her own life careening sideways. Tillie, a thirty-eight-year-old grandmother, turns tricks alongside her teenage daughter, determined not only to take care of her family but to prove her own worth. Elegantly weaving together these and other seemingly disparate lives, McCann's

powerful allegory comes alive in the unforgettable voices of the city's people, unexpectedly drawn together by hope, beauty, and the "artistic crime of the century." A sweeping and radical social novel, *Let the Great World Spin* captures the spirit of America in a time of transition, extraordinary promise, and, in hindsight, heartbreaking innocence. Hailed as a "fiercely original talent" (*San Francisco Chronicle*), award-winning novelist McCann has delivered a triumphantly American masterpiece that awakens in us a sense of what the novel can achieve, confront, and even heal. BONUS: This edition includes an excerpt from Colum McCann's *TransAtlantic*. "This is a gorgeous book, multilayered and deeply felt, and it's a damned lot of fun to read, too. Leave it to an Irishman to write one of the greatest-ever novels about New York. There's so much passion and humor and pure life force on every page of *Let the Great World Spin* that you'll find yourself giddy, dizzy, overwhelmed."—Dave Eggers "Stunning . . . [an] elegiac glimpse of hope . . . It's a novel rooted firmly in time and place. It vividly captures New York at its worst and best. But it transcends all that. In the end, it's a novel about families—the ones we're born into and the ones we make for ourselves."—USA Today

The glamorous world of a silent film star's wife abruptly crumbles when she's forcibly quarantined at the Carville Lepers Home in this page-turning story of courage, resilience, and reinvention set in 1920s Louisiana and Los Angeles. Based on little-known history, this timely book will strike a chord with readers of Fiona Davis, Tracey Lange, and Marie Benedict. Based on the true story of America's only leper colony, *The Second Life of Mirielle West* brings vividly to life the Louisiana institution known as Carville, where thousands of people were stripped of their civil rights, branded as lepers, and forcibly quarantined throughout the entire 20th century. For Mirielle West, a 1920's socialite married to a silent film star, the isolation and powerlessness of the Louisiana Leper Home is an unimaginable fall from her intoxicatingly chic life of bootlegged champagne and the star-studded parties of Hollywood's Golden Age. When a doctor notices a pale patch of skin on her hand, she's immediately branded a leper and carted hundreds of miles from home to Carville, taking a new name to spare her family and famous husband the shame that accompanies the disease. At first she hopes her exile will be brief, but those sent to Carville are more prisoners than patients and their disease has no cure. Instead she must find community and purpose within its walls,

struggling to redefine her self-worth while fighting an unchosen fate. As a registered nurse, Amanda Skenandore's medical background adds layers of detail and authenticity to the experiences of patients and medical professionals at Carville - the isolation, stigma, experimental treatments, and disparate community. A tale of repulsion, resilience, and the Roaring '20s, *The Second Life of Mirielle West* is also the story of a health crisis in America's past, made all the more poignant by the author's experiences during another, all-too-recent crisis. PRAISE FOR AMANDA SKENANDORE'S BETWEEN EARTH AND SKY "Intensely emotional...Skenandore's deeply introspective and moving novel will appeal to readers of American history." -Publishers Weekly

In boyhood, Louis Zamperini was an incorrigible delinquent. As a teenager, he channeled his defiance into running, discovering a prodigious talent that had carried him to the Berlin Olympics. But when World War II began, the athlete became an airman, embarking on a journey that led to a doomed flight on a May afternoon in 1943.

When his Army Air Forces bomber crashed into the Pacific Ocean, against all odds, Zamperini survived, adrift on a foundering life raft. Ahead of Zamperini lay thousands of miles of open ocean, leaping sharks, thirst and starvation, enemy aircraft, and, beyond, a trial even greater. Driven to the limits of endurance, Zamperini would answer desperation with ingenuity; suffering with hope, resolve, and humor; brutality with rebellion. His fate, whether triumph or tragedy, would be suspended on the fraying wire of his will.
