The pottery industry suffered severely in the chaotic middle decades of the 17th century, of which the typical products were “transitional wares,” chiefly blue-and-white. The imperial kilns at Jingdezhen were destroyed and were not fully reestablished until 1682, when the Kangxi emperor appointed Cang Yingxuan as director.

Chinese pottery - The Qing dynasty (1644–1911/12) | Britannica

Chinese pottery, also called Chinese ceramics, objects made of clay and hardened by heat: earthenware, stoneware, and porcelain, particularly those made in China. Nowhere in the world has pottery assumed such importance as in China, and the influence of Chinese porcelain on later European pottery has been profound.
