and seasoned coders

The Coders' Desk Reference for Diagnoses provides thousands of clinical descriptions of diseases, disease processes, injuries, poisonings, and other conditions to help both novices and seasoned coders attain the knowledge and skill necessary to accurately identify and assign the most specific ICD-10-CM diagnosis code for each documented condition. With these clinical definitions and focus points, you can reduce coding errors and improve coding confidence by gaining a better understanding of the clinical meanings behind the codes.

The Coders' Desk Reference for ICD-10-PCS Procedures addresses the challenge of translating common procedural nomenclature used by providers to the corresponding ICD-10-PCS coding terminology. Because provider documentation often does not reflect the precise terminology found in ICD-10-PCS, correct procedure coding is dependent on the ability of the coder to translate common procedural terminology to the appropriate procedural terminology of ICD-10-PCS. This resource is organized by common procedural nomenclature used in the hospital setting and then linked to the related root operation table(s); the procedure is described in layman's terms, translated to ICD-10-PCS root operation terminology, and the corresponding root operation table(s) is identified.
