Coding Section Details Question-1 Problem Statement – Write a program to calculate the fuel consumption of your truck.The program should ask the user to enter the quantity of diesel to fill up the tank and the distance covered till the tank goes dry.Calculate the fuel consumption and display it in the format (liters per 100 kilometers).

Cognizant Coding Questions and Answers 2020-21 | PrepInsta
Question 1 is easy to enter into your analysis table, as there is only one value required either 0 or 1. Question 2 needs more thought. Will you enter the highest or lowest value; or perhaps take the median or average value? However, simply entering a value against each possible answer is not sufficient.

Successful questionnaire design: Coding
