retitled to better reflect its college level. The content is still concentrated on basic principles, but increasingly reflects the impact of current social, economic, technological, and political factors. For example, it now focuses on sustainability throughout, and offers greater emphasis on culinary issues. The textbook also contains a new running case study based on University of Wisconsin, Madison's University Dining Services.

The thoroughly revised and updated fourth edition of Foodservice Manual for Health Care Institutions offers a review of the management and operation of health care foodservice departments. This edition of the book—which has become the standard in the field of institutional and health care foodservice—contains the most

appeal to the text and help culinary students to master important concepts. Now in its 6th edition, this book demonstrates the importance of understanding and using math concepts to effectively make money in this demanding business. Part 1 trains your students to use the calculator. Part 2 reviews basic math fundamentals. Subsequent parts address math essentials and cost controls in food preparation and math essentials in food service record keeping, while the last part of the book concentrates on managerial math. New topics to this 6th edition include controlling beverage costs; clarifying and explaining the difference between fluid ounces and avoirdupois ounces; and an entire new section on yield testing and how to conduct these tests. There are new methods using

Download Free Foodservice Organizations

helpful memory devices and acronyms to help the student remember procedures and formulas, such as BLT, NO, and the Big Ounce. New strategies and charts are also shown and explained on how to use purchases in order to control food and beverage costs and how transfers affect food and beverage costs. In addition, sections have been added on how to control costs using food (or liquor, or labor) cost percentage guidelines. The content in MATH PRINCIPLES FOR FOOD SERVICE OCCUPATIONS, 6E meets the required knowledge and competencies for business and math skills as required by the American Culinary Federation. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.
