be heard.' - Anthony Horowitz The world is changing by the day. Today's teenagers are growing up in a world of widening social inequality, political apathy and economic uncertainty. They join gangs, and are kind. They're obese, and they're more health-conscious than any generation before. They have underage sex, and they're less likely to get pregnant young. They drink, and they go teetotal. They watch porn, and they shun it. They go to church, and they have no religion. They're a menace to society. They are society. Curious, creative and worried about the future, Generation Z have grown up in a world of unprecedented connection, and ever-increasing division. Chloe Combi has travelled around the UK, talking with teenagers from all kinds of backgrounds about their lives, their fears and their dreams, uncovering

some truly surprising stories about a generation often stereotyped and dismissed. Told in their voices, Generation Z is a shocking, enlightening and funny portrait of how it feels to be young in modern Britain, and what it takes to survive and thrive on the journey to adulthood.

Generation Z have never had to save their pocket money to buy an album. They laugh when you tell them there used to be four channels on TV. Not many of them have grandparents that fought in a war. They've never known a world without the internet and have grown up with violence and porn at their fingertips with an object barely known to just one generation before them: a mobile phone. economic uncertainty. They join gangs, are obese, have underage sex, drink, commit crime and are a menace to society - or so the media leads us to believe. Chloe Combi has interviewed hundreds of teenagers and children born between 1994 and 2005. She has talked to some of the richest and poorest in kids in the country. She has travelled on night buses with gangs, gone on a post-GCSE trip to Glastonbury, hung out in crack houses where teenagers get high, rehabilitation centres where they get help and churches where they find God. Chloe has found that Generation Z are selfish, violent, scared, sex-obsessed and apathetic. She has also found them delightful, curious, kind, and worried about their futures. Those in Generation Z are among our youngest consumers, students, colleagues, constituents, voters, and neighbors. Being able to better understand who they are and how they see the world can be helpful in effectively working with, teaching, supervising, and leading them. *Generation Z: A Century in the Making* offers insight into nearly every aspect of the lives of those in Generation Z, including a focus on their career aspirations, religious beliefs and practices, entertainment and hobbies, social concerns, relationships with friends and family, health and wellness, money management, civic engagement, communication styles, political ideologies, technology use, and educational

preferences. Drawing from an unprecedented number of studies with higher education research institutions, market research firms such as Pew and Census, other generational researchers and industry leaders, this is the authoritative defining work on Generation Z that market researchers, consumer behaviour specialists, and employers sorely need and it is a fascinating read for anyone interested in the sociology of generations.

The most complete and authoritative guide to Gen Z, describing how leaders must adapt their employment, sales and marketing, product, and growth strategies to attract and keep this important new generation of customers, employees and trendsetters. Gen Z changes everything. Today's

businesses are not built to sell and market the way Gen Z shops and buys, or to recruit and employ Gen Z the way they find and keep jobs. Leaders need answers now as gen Z is the fastest growing generation of employees and the most important group of consumer trendsetters. The companies that quickly and comprehensively adapt to Gen Z thinking will be the winners for the next twenty years. Those that don't will be the losers or become extinct. Zconomy is the comprehensive survival guide on how leaders must understand and embrace Generation Z. Researched and written by Dr. Denise Villa and Jason Dorsey from The Center for Generational Kinetics, the insights in Zconomy are based on their extensive research, they've led more than 60 generational studies, and their work with more than 500

companies around the world. In *Zconomy*, Dr. Villa and Dorsey answer: Who is Gen Z? What do employers, marketers, and sales leaders need to know? And, most importantly, what should leaders do now? This is the critical moment for leaders to understand and adapt to Gen Z or become irrelevant. Gen Z is already reshaping the world of business and this change is only going to accelerate. *Zconomy* is the definitive manual that will prepare any executive, manager, entrepreneur, HR or marketing professional to successfully unlock the powerful potential of this emerging generation at this pivotal time.

The numbers cannot be ignored: eighty million Millennials wielding \$200 billion in buying power are entering their peak earning and spending years. Companies that think winning their business is a simple matter of creating a Twitter account and applying outdated notions of "cool" to their advertising are due for a rude awakening. Marketing to Millennials is both an enlightening look at this generation of consumers and a practical plan for earning their trust and loyalty. Based on original market research, the book reveals the eight attitudes shared by most Millennials, as well as the new rules for engaging them successfully. Millennials: * Value social networking and aren't shy about sharing opinions * Refuse to remain passive consumers-they expect to participate in product development and marketing * Demand authenticity

and transparency * Are highly influential-swaying parents and peers * Are not all alike-understanding key segments is invaluable Featuring expert interviews and profiles of brands doing Millennial marketing right, this eye-opening book is the key to persuading the customers who will determine the bottom line for decades to come.

You've only just begun to understand Millennials and know how to market most effectively to them. However, their successors are already right around the corner and promising even bigger challenges for the marketplace. But with bigger challenges come great opportunities, and Marketing to Gen Z wants to help you get ahead of the game when it comes to understanding and reaching this next generation of

buyers. Having internalized the lessons of the Great Recession, Generation Z blends the pragmatism and work ethic of older generations with the high ideals and digital prowess of youth. For brands, reaching this mobile-first and socially conscious cohort requires real change, not just tweaks to the Millennial plan. Businesses will have to learn how to:

- Get past the 8-second filter
- Avoid blatant advertising and tap influencer marketing
- Understand their language and off-beat humor
- Offer the shopping experiences they expect

Marketing to Gen Z dives into and explains all this and much more, so that businesses may most effectively connect and converse with the emerging generation that is expected to comprise 40 percent of all consumers by 2020. The time to learn who they are and what they want is NOW.
