Transmission fluid is an essential lubricant for any automobile. It keeps the transmission's moving parts lubricated and cooled. But transmission fluid breaks down over time, and when it does it cannot protect the moving parts as it should. Isuzu recommends you change the fluid in your Rodeo's transmission after 50,000 to 75,000 miles of wear.

Isuzu Rodeo Manual Transmission Fluid

In the morning start it up...Let it run for about 6 or 7....To warm up transmission fluid temp. your transmission fluid temp should be about 100 to 125. you have to crawl under your rodeo to your transmission plug...not your drain plug.....Take your plug out, If fluid drips, More then likely you don't need fluid....but use your fluid tube to add a little in...

How do I add transmission fluid to a 1998 Isuzu Rodeo? - Fixya

There is no temperature light for your transmission fluid. Isuzu Rodeos are unique in the way that they have no dip stick or any way of checking your tranny fluid. You need to take it to a transmission specialist and they can drain all the fluid and replace it with new. It should cost around \$180.
