A collection of dark stories from the twisted mind of Matt Shaw Over 300 pages of bizarre horror including body horror, grotesque horror and serial killer horror! This book is not intended for those who don't enjoy twisted horror, or comedy with their horror. The stories within this collection are all told with Matt Shaw's black sense of humour and are meant as a little "disgusting fun" for those who enjoy horror. If you are easily offended, please do not purchase

Matt Shaw is proud to present Duncan Ralston's "Woom." 'Trust me when I say, this is messed up...' - Matt Shaw (author, Sick B*stards) The Lonely Motel holds many dark secrets... and Room 6 just might possess the worst of them all. Angel knows a lot about pain. His mother died in this room. He's researched its history. He's come back today to end it, no matter the cost, once and for all. Prostitute Shyla believes the stories Angel tells her can't be true. Secrets so vile, you won't want to let them inside you. But the Lonely Motel doesn't forget. It doesn't forgive. And it always claims its victim.

Aidan Snow thought he could escape his past. But now it's back, with a vengeance.

Recent economic, political, and technological forces are changing the landscape of electronic business and electronic commerce. Although great strides have been made over the past in understanding, researching and advancing e-business, rarely have we witnessed its use so profound and yet its limitations so pronounced, than what has been on global public display for the past 18 months. As a result, new e-commerce strategies and techniques are emerging, collaborative value creation is essential and e-business models are being refined and developed, with special attention towards IS in financial markets, health care and related institutions. It is for these reasons (and many more) that we are so particularly excited and grateful for the collection of papers included in this Value Creation in e-Business Management LNBIP volume number 36. The papers selected in this volume address

these emerging e-business issues and are organized into four research lines: Business Models for the Digital Economy, Electronic and Mobile Commerce Behavioral and Global Issues, IS in Financial Markets and Institutions, Web 2.0 and E-Commerce and Collaborative Value Creation. The first group, Business Models for the Digital Economy, provides a closer examination of business models from a rich mixture of segments in the IT industry. They include Hoyer and Stanoevska-Slabeva's business model types for enterprise mashup intermediaries, Riehle's 'commercial' open source business model, Chen's interesting comparison between iPhone versus Kindles in electronic book sales, and Lyons and coauthors business models in emerging online services.
