This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

A strategy text on value creation with case studies The ninth edition of Contemporary Strategy Analysis: Text and Cases focuses on the fundamentals of value creation with an emphasis on practicality. Topics in this edition include: platform-based competition and ecosystems of related industries; the role of strategy making processes; mergers, acquisitions and alliances; and strategy implementation. Within the twenty case studies, students will find leading companies that are familiar to them. This strategy analysis text is suitable for MBA and advanced undergraduate students.

The second book of Shaftal. The country has a ruler again, Karis, a woman who can heal the war-torn land and expel the invaders. But she lives in obscurity with her fractious found family. With war and disease spreading, Karis must act. And when Karis acts, the very stones of the earth sit up and take notice.

This book presents twelve original compositions for piano solo encompassing three musical styles originated in the Brazilian Northeast: the xote, the baião and the frevo.

A true story about the devastating impacts of mental illness and domestic violence that saw one family self-destruct in just 67 harrowing days. Almost every family has a tumultuous chapter and this story is about the real impact mental illness and domestic violence can have. The consequences are not only catastrophic for sufferers, but also for those who love them. Travis tells his story with rawness and honesty, but also with hope and humour.
