Universally respected, the authoritative 'Lippincott Manual' (sometimes called just the 'Lippincott') continues to be the most comprehensive reference 'tool kit' that practicing nurses and nursing students turn to for essential nursing knowledge and up-to-date information on patient care. LMNP is widely used as a procedure manual for many healthcare institutions (contains 109 Nursing Procedure Guidelines) and is widely regarded as the Gold Standard for nursing practice in the courtroom. Organized into five major parts, LMNP presents a comprehensive reference for all types of core nursing care. Part 1: Nursing Process & Practice; Part 2: Medical-Surgical Nursing; Part 3: Maternity & Neonatal Nursing; Part 4: Pediatric Nursing; Part 5: Psychiatric Nursing. Official Guidelines that shape practice are incorporated and include those from the National Institutes of Health, American Diabetes Association, American Heart Association, American Nurses Association, Joint Commission, AWHONN, and others; Plentiful additional resources as well as Web sites are included.

Accompanying CD-ROM has nursing care plans, a customizable psychosocial assessment tool, and monographs about psychotropic drugs.

This package contains the following products: 9780781798334 Nettina Lippincott Manual of Nursing Practice, North American Edition, 9e 9781451158335 LWW NCLEX-PN 5000 Powered by PrepU

"A classic text since it was first published in 1974, the Lippincott Manual for Nursing Practice has provided essential nursing knowledge and up-to-date information on patient care for nearly 40 years. Organized into five major parts, covering the Nursing Process and Practice; Medical-Surgical Nursing; Maternity & Neonatal Nursing; Pediatric Nursing; and Psychiatric Nursing. Written in an easy-to-read outline format, content is evidence-based and filled with procedure guidelines, Nursing Care Plans, Patient Education boxes, Standards of Care, and Assessments"--Provided by publisher.

An outstanding resource for students and practicing nurses, the Ninth Edition of Lippincott's Manual of Psychiatric Nursing Care Plans contains 52 nursing care plans that address the most commonly encountered behaviors in psychiatric-mental health nursing. An excellent tool to introduce students to clinical psychiatric experience, the Manual demonstrates use of the nursing process in psychiatric nursing and gives suggestions for specific interventions--with rationale--to address particular behaviors, giving the student a sound basis on which to build clinical skills. Covering a range of problems and a variety of approaches, the care plans are meant to be adapted and individualized in planning nursing care for each client. The Ninth Edition has been thoroughly updated and includes new information on complementary and alternative medicine and using the internet; as well as new or expanded appendices on psychopharmacology; side effects of medications and related nursing interventions; and schizoid, histrionic, narcissistic, and avoidant personality disorders.

Now in its thoroughly revised, updated Seventh Edition, this Spiral® Manual provides practical, easily accessible information on management of the pregnant patient. Major sections cover obstetric care, obstetric complications, maternal complications, fetal assessment, fetal complications, and neonatal care. This edition's chapters have a new consistent outline structure, more tables, and more figures. Coverage includes a new chapter on obstetric anesthesia and new information on drugs for cardiovascular, neurologic, and endocrine conditions, including oral agents for gestational diabetes. The chapter on genetic counseling has been completely rewritten. This edition also addresses controversies regarding surgical births and vaginal birth after cesarean (VBAC).

The Seventh Edition of this nursing-focused nutrition text has been updated to reflect the latest evidence-based practice and nutrition recommendations. Written in a user-friendly style, the text emphasizes what the nurse really needs to know in practice. Maintaining its nursing process focus and emphasis on patient teaching, this edition includes features to help readers integrate nutrition into nursing care such as sample Nursing Process tables, Case Studies in every chapter, and new Interactive Case Studies online. This is the tablet version which does not include access to the supplemental content mentioned in the text.

The Sixth Edition of this classic text maintains its place as the "Gold Standard" of nursing research. Nationally and internationally known, respected and used, the text provides readers with the skills they need to design and implement a research investigation and critically evaluate published research reports. Now completely revised and updated to reflect the latest trends in quantitative and qualitative research, this essential guide offers a focused, "how-to" approach. New in this edition: expanded discussion of qualitative approaches; demonstration of qualitative and quantitative approaches working together; charts and tables offer description of qualitative approaches; stronger emphasis on the "hands-on, how-to" methodology; more in-depth examination of reasearch difference; research more powerful research utilization.
