*Engine - HPD Collaborative*

In the late 80's, HKS developed a conversion kit consisting of longer stroke crank and pistons for the 4A-GE. The line has been expanded to array of configurations, which range from 8.0-11.6 in compression rates. This kit was called appropriately, the 5A-GE kit. Also in the early 90's, Toyota revised the Corolla engine and 7A-FE was introduced.

fails to start, in fact it is "one click".

*prolonged cranking before the engine starts in the morning ...*

Normal service items:

Prolonged cranking can be caused by a dirty throttle bore which can disrupt the airflow into the engine. The throttle actuator (throttle bore on older vehicle - cable) is an electronic throttle control which will get a condition called "coking" which is a kind of light tar like goo on the butterfly and its inner body.
