A great story about a man who really should because honoured and recognised as every other great British scientist, engineer and inventor. Not only Britain, but the whole world, owes John and William Harrison, his son, so much. So very well told by Data Sobel and meticulously researched: as a retired engineer, I could not leave the book.

Longitude fixes the location of a place on Earth east or west of a north-south line called the prime meridian. It is given as an angular measurement that ranges from 0° at the prime meridian to +180° eastward and −180° westward. Knowledge of a ship's east-west position was essential when approaching land.
