I think you have to turn on the rigid tap option in the settings page. Its been ten years since I used a meldas controller, but I believe it was a 520. It should be a G84 or G84.1 code. these will let you control the tap cycle manually with the pulse generator in single block by switching to manual at the R plane without hitting reset.

Mitsubishi Meldas 520 am control question

This manual is a guide for using the MELDAS 60/60S Series, MELDASMAGIC64. Programming is described in this manual, so read this manual thoroughly before starting programming.
