In Financial Markets and Institutions, best-selling authors Mishkin and Eakins provide a practical introduction to prepare students for today's changing landscape of financial markets and institutions. A unifying framework uses a few core principles to organize students' thinking then examines the models as real-world scenarios from a practitioner's perspective.

the lower fixed interest rate paid by a bond resulting in a decline in the price of the bond. According to Mishkin and Eakins (2009), another way to explain why the bond price falls when the interest rises is that a higher interest rate implies that the future coupon payments and final payment are worth less when discounted back to the present; hence the price of the bond must be lower (p.49).
