Despite longer transit, it is the most efficient mode for moving oil across the world. Essentially, ocean shipping is mostly used as a part of a large intermodal strategy. Rail. Rail transport was a primary way to move oil for more than 150 years. Rail transportation makes oil containers less prone to damage compared to other shipping modes. This method doesn ' t have enough flexibility to move oil at any point.

diversity and inclusion on board. Diversity and inclusion are a core value of The Chevron Way. There are few better examples of those values than the diversity and inclusiveness embodied by the crews of our ships. Crewmembers come from different countries and cultures and speak many different languages.
