Step 1, Gather your supplies. First you need a comfortable and well lit work area. You also should have hobby knives, a small file set, fingernail filing boards, super glue, a clean pot of water, and a paint set. Step 2, Clean your miniature. When miniatures are cast a release agent is applied to them. This is an oily or powdery substance that needs to be removed before you start painting. Wash with warm soapy water to clean off any mold release on the model. Let the miniature dry. Step 3 ...

From New York Times best-selling author of the Dinotopia series, James Gurney, comes a carefully crafted and researched study on color and light in paintings. This art instruction book will accompany the acclaimed Imaginative Realism: How to Paint What Doesn't Exist. James Gurney, New York Times best-selling author and artist of the Dinotopia series, follows Imaginative Realism with his second art-instruction book, Color and Light: A Guide for the Realist Painter. A researched study on two of art's most fundamental themes, Color and Light bridges the gap between abstract theory and practical knowledge. Beginning with a survey of underappreciated masters who perfected the use of color and light, the book examines how light reveals form, the properties of color and pigments, and the wide variety of atmospheric effects. Gurney cuts through the confusing and contradictory dogma about color, testing it in the light of science and observation. A glossary, pigment index, and bibliography complete

what will ultimately become an indispensable tool for any artist. This book is the second in a series based on his blog, gurneyjourney.com. His first in the series, *Imaginative Realism*, was widely acclaimed in the fantastical art world, and was ranked the #1 Bestseller on the Amazon list for art instruction. "James Gurney's new book, *Color and Light*, cleverly bridges the gap between artistic observation and scientific explanation. Not only does he eloquently describe all the effects of color and light an artist might encounter, but he thrills us with his striking paintings in the process." --Armand Cabrera, Artist

Javier Gomez, a highly talented figure painter of long experience and excellent reputation, shares the secrets of his success in this accessible 'how-to' guide to painting miniatures. He takes the reader step-by-step through the whole process, from choice of materials (unlike other available guides it is not linked to any specific figure manufacturer) and preparation of the miniatures to basing and even advice on photographing the finished item. Techniques such as dry-brushing, ink-washing, shading and highlighting are all explained clearly with the help of step-by-step photographs and colour charts. Specific case studies tackle a variety of useful subjects across all periods, such as mixing realistic flesh tones for different races;

The first in a new series, *The Art of Painting Miniatures: Faces and Figures* provides a fresh look at the art of figure painting. The content in this book is a result of 30 years hands-on experience, critical observation, experimentation and enhancement of what works. The step-by-step painting process will elevate your level of figure painting from a poorly painted face to a realistic one. The goal is to give the figure, in particular the head and face, serious and artistic treatment, emphasizing skin tones, character development and realism. This book is dedicated to the beginner as well as the experienced modelers, who feel a need to tell a story using figures in their vignettes and dioramas; to the textile painters who paint uniforms, banners, flags and other accessories with great detail and but need the concept and techniques to improve their face and figure work; to the advance modeler who understands his level of expertise and depends on another at his level to paint the figures for his dioramas; for the experienced modelers who want to elevate the level

While it may seem easy to paint a three dimensional miniature figure, to do it properly requires a practiced hand and some artistic techniques. Because the figure is so small the shadings and highlights must be emphasized to make the figure seem realistic. Mike Davidson has years of experience painting miniature military figures and in teaching the art to others. Using a combination of hobby paints and oils he is able to create a visual effect that brings life to the cast or sculpted figures. In this book Mike takes a commercially produced casting and takes the reader through the process of assembly, painting and mounting, ending with a figure that would be a proud addition to any collection. Each step is clearly photographed and captioned so that the reader may follow them. While applied to a particular figure, the lessons learned from this book will enhance any painting the reader may choose to do.
