The Pratt & Whitney Canada PW100 turboprop engine has millions of flight hours behind it, aided by maintenance programmes designed with cost-effectiveness in mind. Across all airline operations, the Airbus A320 and Boeing 737 families are often referred to as the workhorses of the industry – and rightly so.

Maintaining PW100 engine family values while being cost ...

The PW100 is a three-shaft, two-spool engine. Low pressure and high pressure compressors are powered independently by cooled turbine stages. A third shaft couples the power turbine to the propeller through a reduction gearbox, optimized to establish the best combination of engine
