The publication Life Safety Code, known as NFPA 101, is a consensus standard widely adopted in the United States. It is administered, trademarked, copyrighted, and published by the National Fire Protection Association and, like many NFPA documents, is systematically revised on a three-year cycle. Despite its title, the standard is not a legal code, is not published as an instrument of law, and has no statutory authority in its own right. However, it is deliberately crafted with language suitable
