"I am interested in taking up sabre. What is the best manual to begin with?" My personal answer to this is: "The one you prefer." Few people realize the number of manuals that were written on that subject. For the 19th century alone, the Schola Artis database gives us close to 200 manuals, with many probably missing. In this sea of ...

Sabre Sabre is a program for the statistical analysis of multi-process event/response sequences. These responses can take the form of binary, ordinal, count and linear recurrent events. The response sequences can also be combinations of different types (e.g. linear {wages} and binary {trade union membership}).
