Radiology A Diagnostic

Veterinary diagnostic imaging. Much of the cutting-edge work carried out at RVC Small Animal Referrals would not be possible without the specialist expertise and world-class facilities of our Diagnostic Imaging Service. When imaging of any kind is required, cases are assessed using the most up-to-date equipment in the UK.

Small Animal Imaging. Every year, thousands of companion animals visit the VMTH and are in need of a procedure from our Diagnostic Imaging Service. While dogs and cats are the pets we the most, we will occasionally see exotic species such as iguanas, parrots, turtles, rabbits and others. Our facilities are able to handle the largest dogs down to the smallest birds.

If your pet requires an imaging study, the first person they are likely to meet is one of our NHS-trained radiographers or our imaging nurse. They will run the equipment acquiring the highest possible quality images. These images are then passed to our team of radiologists for interpretation and subsequent discussion with our other services.

Langford Vets - Imaging

After several years in mixed and small animal practice he completed the RCVS Certificate in Veterinary Diagnostic Imaging in 2005 and started a residency at the Royal Veterinary College (RVC) in 2007. He successfully completed the European College of Veterinary Diagnostic Imaging (ECVDI) diploma
