Keith's Radio Station offers a concise and insightful guide to all aspects of radio operations, explaining the functions performed within every professionally managed station. Now in its ninth edition, this book continues its long tradition of guiding readers to a solid understanding of who does what, when, and why. This new edition explains what "radio" in America has been, where it is today, and where it is going. Covering the basics of how programming is produced, financed and delivered across a spectrum of technologies, including the newest technological trends such as streaming and podcasting, satellite, and HD Radio, John Allen Hendricks and Bruce Mims argue that the future of radio remains bright and strong as it continues to evolve with emerging technologies. New to this edition: New and updated essays from industry leaders discussing how radio is evolving in an era of rapidly changing technology A thorough examination of Internet radio, online music services, and mobile listening devices An analysis of how new technologies have fragmented the advertising dollar A discussion of station website content and promotional usage of social media A revised examination of technologically advanced strategies used in traffic and billing departments Updated, full-color photos and illustrations. The new companion website features content for both students and instructors, including an instructors' manual, lecture slides, test questions, audio examples of key concepts, quizzes for students, and links to further resources.

The Radio Station offers a concise and insightful guide to all aspects of radio broadcasting, streaming, and podcasting. This book's tenth edition continues its long tradition of guiding readers to a solid understanding of who does what, when, and why in a professionally managed station. This new edition explains what "radio" in America has been, where it is today, and where it is going, covering the basics of how programming is produced, financed, delivered and promoted via terrestrial and satellite broadcasting, streaming and podcasting, John Allen Hendricks and Bruce Mims examine radio and its future within a framework of existing and emerging technologies. The companion website is new revised with content for instructors, including an instructors' manual and test questions. Students will discover an expanded library of audio interviews with leading industry professionals in addition to practice quizzes and links to additional resources.

MediaWriting is an introductory, hands-on textbook for students preparing to write in the current multimedia environment. Rather than just talk about the differences among the styles of print, broadcast, and public relations, MediaWriting synthesizes and integrates them, while weaving in basic principles of Internet writing and social media reporting. Complete with real-world examples, practical writing exercises, and tips and information for entering into the profession, MediaWriting continues to give students the tools they need to become a successful media writer. The new edition has been extensively rewritten to reflect the dynamic nature of the profession, paying significant attention to how the Internet and social media have become essential communication tools for print and broadcast journalists, and public relations professionals. Further updates and features include: Increased attention to computer-assisted reporting, the preparation of online copy, and social media applications Two new chapters on lead writing and new new media A separate chapter focused solely on ethics Explanatory "how to" boxes that help students understand and retain main themes Illustrative "It Happened to Me" vignettes from the authors' professional experiences Discussion questions and exercises at the end of every chapter Suggested readings that highlight biographies, books, and websites that expand the scope and definition of professionalism In addition to new multimedia elements, the fourth edition's companion website features enhanced resources for both students and instructors, including chapter overviews, writing tips, a test bank, sample critiques, and a sample syllabus.

MODERN RADIO PRODUCTION, NINTH EDITION, provides students with a current, comprehensive look at radio production and programming, integrating new material on cutting-edge technologies with explanations of traditional equipment and practices. The authors' clear writing style, excellent

descriptions and explanations, and attention to detail ensure that the text is consistent and appropriate for use in undergraduate courses. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

The 11th International Conference on Cyber Warfare and Security (ICCWS 2016) is being held at Boston University, Boston, USA on the 17-18th March 2016. The Conference Chair is Dr Tanya Zlateva and the Programme Chair is Professor Virginia Greiman, both from Boston University. ICCWS is a recognised Cyber Security event on the International research conferences calendar and provides a valuable platform for individuals to present their research findings, display their work in progress and discuss conceptual and empirical advances in the area of Cyber Warfare and Cyber Security. It provides an important opportunity for researchers and managers to come together with peers to share their experiences of using the varied and expanding range of Cyberwar and Cyber Security research available to them. The keynote speakers for the conference are Daryl Haegley from the Department of Defense (DoD), who will address the topic Control Systems Networks...What's in Your Building? and Neal Ziring from the National Security Agency who will be providing some insight to the issue of Is Security Achievable? A Practical Perspective. ICCWS received 125 abstract submissions this year. After the double blind, peer review process there are 43 Academic Research Papers 8 PhD papers Research papers, 7 Masters and 1 work-in-progress papers published in these Conference Proceedings. These papers represent work from around the world, including: Australia, Canada, China, Czech Republic, District of Columbia, Finland, France, Israel, Japan, Lebanon, Netherlands, Pakistan, Russian Federation, Saudi Arabia, South Africa, Turkey, United Arab Emirates, UK, USA.
