Because the Marble Galaxy Track has 4 designated track-building combinations, it's probably best for younger kids who are new to marble racing games! Each set comes with an instruction manual showing kids (and parents) how to use the 70 multi-colored, translucent building blocks to make increasingly difficult marble runs.

Includes The Claverings, by Anthony Trollope interspersed through vols. 1-3, 1866-67.

An eleven-year-old, bored with her life, imagines a more exciting one as a secret agent, but when she spends the summer on her aunt's farm, her stories become reality as she stumbles onto a real spy ring.

The world, as Lafayette O'Leary knew it, disappeared in a flash. Perhaps it was his own doing - after all, he had the uncanny gift of creating alternate realities by sheer mental power. But the result was a nightmare gone out of control. All O'Leary wanted was to find his wife and return to the familiar world of Artesia. Yet no sooner did he manage to extricate himself from one bizarre situation than he was thrust into another, equally threatening... There was only one thing to do: he had to penetrate the very center of power from which his destiny was being controlled and - take it into his own hands!
