The Metabolic Landscape □ Contact

Our exhibition takes the title of our accompanying book, The Metabolic Landscape: Perception, Practice and the Energy Transition. Metabolism refers to the energy system of any living organism, including humans. We process energy from food and burn this energy through physical and mental activity in terms not so very different from a candle.

Exhibition Q&A: The Metabolic Landscape □ CRASSH

[eBooks] The Metabolic Landscape Perception Practice And ...

The Metabolic Landscape navigates the disciplines of art, science and philosophy to picture and interpret the planet's current state of \"metabolic distress\". Humankind's search for more powerful sources of energy to sustain an urbanising existence has created an energy transition that, while hugely beneficial to human existence, is now being identified as a source of harm.
