X-15's Fastest Flight - 4520 MPH!

First Flight Of X-15 Rocket Plane (1959) **The X15 Rocket Plane Flying**

The North American X-15 was a hypersonic rocket-powered aircraft operated by the United States Air Force and the National Aeronautics and Space Administration as part of the X-plane series of experimental aircraft. The X-15 set speed and altitude records in the 1960s, reaching the edge of outer space and returning with valuable data used in aircraft and spacecraft design.
