By its dates, mid-July to mid-August I thought it must come to the Edinburgh Festival Fringe but it isn't and it won't. I saw a production of 'Translations' at the Donmar some years back and want to see it again but alas I ...

Ill-fated love affair between British soldier and Irish peasant girl set in 1833 Ireland during British attempt to replace native language, Gaelic, with English.

Seminar paper from the year 2017 in the subject Literature - Modern Literature, grade: 1,3, Catholic University Eichstätt-Ingolstadt, language: English, abstract: Brian Friel's play "Translations" takes place in Baile Beag, a rural, Irish-speaking community in County Donegal, and is set in the year 1833. Its historical setting marks a major transition within the Irish culture, which was progressively eradicated by the British colonizers at that time. This paper examines the concept of love in "Translations". All kinds of romantic love presented in the play will be analyzed. First, the focus will be on the asymmetrical love between Sarah and Manus as well as on its consequences. Then, the conflict-laden love triangle between the engaged couple Manus and Maire, and the newly enamored lovers Maire and Yolland will be analyzed precisely. After that, there will be an insight in Jimmy Jack's love towards the ancient Greek goddess Athena.

Gathers a wide selection of poems by British and American authors, including Frost, Ginsberg, Graves, Eliot, Hardy, Shakespear, Tennyson, Wordsworth, and Auden.

Seminar paper from the year 2010 in the subject English Language and Literature Studies - Literature, grade: 2,3, University of Wuppertal, course: The Politics of Irish Drama, language: English, abstract: 1. Introduction The title of the play in question written by Brian Friel, namely Translations identifies one of the common concerns the leading Field Day dramatist shares with other postcolonial writers and which is subject of analysis in this essay. The playwright himself emerges as a translator of the Irish Gaelic past, illustrated by the fictional Gaelic-speaking community Baeile Beag in Donegal, into the political and economic realities of an Anglicized Ireland. The interpretation will be put forward that the central notion of the play is the unreliability of translation. Before one examines Friel's utilisation of the concept "translation" in the same-titled play, the technical term itself has to be clarified by drawing on some insights from translation theory. In addition to that, some brief comments will be made regarding the essay's underlying ideas of language, culture and identity as these will be frequently points of reference during the course of this essay. In order to justify the interpretation introduced above, Friel's theatrical device that is, to have the play enacted monolingual in the colonisers' tongue has to be commented on. It will be illustrated that the shift from one language (Irish) to another (English) is presented in the play as a predictable consequence of at least three forces: Firstly, the establishment of the National School System; secondly, the utility to learn English; thirdly, the perhaps strongest force presented as a powerful metaphor, the ordnance survey. The subsequent interpretations are rather based on character readings. Sarah, the mute hedge school student is of special interest because she represents the close connection between name and identity. Owen, the hedge school teacher's younger son has to be paid closer attention to because of his deliberately performed mistranslation. After considering Yolland's realistic articulation of the concealed cultural divide that separates him from the people of Baile Beag, Hugh's remarks about language will be addressed.

Seminar paper from the year 2015 in the subject Didactics - English - Literature, Works, grade: 2,0, University of Salzburg, language: English, abstract: The Irish history is a history of disempowerment. The invasion by the English triggered a decline of Irish history and language, which resulted in a rise of English power. However, the English have not been able to gain full control over Ireland, and the Irish defended their land not only physically but also

verbally through literature. This struggle for power is represented in Brian Friel's *Translations*. The play takes place in 1833, a time of the first Ordnance Survey, and emergence of the new National Schools; the action happens at a hedge school in a small Irish speaking community, where no English is taught or thought to be important. Nevertheless, throughout the story the English language becomes more and more dominant as English soldiers arrive, the mapping of Ireland becomes central, or the national schools were simply responding to the needs of the times. Language plays not only a significant role in the story but is also a powerful element. In *Translations*, a power shift is represented through the change in the use of and the attitude towards language as well as through the process of language substitution. This paper discusses these changes in relation to the element of power within Ireland.
