Air and Dreams: An Essay on the Imagination of Movement - by Gaston Bachelard Trans. Edith and Frederick Farrell. Bachelard uses his extensive knowledge of the poetry of Poe, Blake, Shelley, and Nietzsche to amplify the images of the airy elements. THE BACHELARD TRANSLATIONS are the inspiration of Joanne H. Stroud, Director of Publications for The Dallas Institute of Humanities and Culture, who in 1981 contracted with Jose Corti to publish in English the untranslated works of Bachelard on the imagination.

Gaston Bachelard is acclaimed as one of the most significant modern French thinkers. From 1929 to 1962 he authored twenty-three books addressing his dual concerns, the philosophy of science and the analysis of the imagination of matter. The influence of his thought can be felt in all disciplines of the humanities - art, architecture, literature, language, poetics, philosophy, and depth psychology. His teaching career included posts at the College de Bar-sur-Aube, the University of Dijon, and from 1940 to 1962 the chair of history and philosophy of science at the Sorbonne. One of the amphitheatres of the Sorbonne is called "L'Amphi Gaston Bachelard," an honor Bachelard shared with Descartes and Richelieu. He received the Grand Prix National Lettres in 1961-one of only three philosophers ever to have achieved this honor. The influence of his thought can be felt in all disciplines of the humanities-art, architecture, literature, poetics, psychology,

freshwater fish. There, the local swimming pool became her first body of water. Through her life there have been others that have meant different things, but have still been, in their own way, home: from the wild coastline of New Zealand to a pond in northwest London. In lyrical, powerful prose, *Small Bodies of Water* weaves together memories, dreams and nature writing. Exploring everything from migration, food, family, earthquakes and the ancient lunisolar calendar, Nina reflects on a girlhood spent growing up between two cultures, and what it means to belong.

makes plain in this important book, it's been the same story in California for almost two centuries now: When it comes to water, 'the resource is finite. The greed isn't.'" --Gary Krist, The New York Times Book Review A vivid, searching journey into California's capture of water and soil--the epic story of a people's defiance of nature and the wonders, and ruin, it has wrought Mark Arax is from a family of Central Valley farmers, a writer with deep ties to the land who has watched the battles over water intensify even as California lurches from drought to flood and back again. In *The Dreamt Land*, he travels the state to explore the one-of-a-kind distribution system, built in the 1940s, '50s and '60s, that is straining to keep up with California's relentless growth. This is a heartfelt, beautifully written book about the land and the people who have worked it--from gold miners to wheat ranchers to small fruit farmers and today's Big Ag. Since the beginning,

Californians have redirected rivers, drilled ever-deeper wells and built higher dams, pushing the water supply past its limit. The Dreamt Land weaves reportage, history and memoir to confront the "Golden State" myth in riveting fashion. No other chronicler of the West has so deeply delved into the empires of agriculture that drink so much of the water. The nation's biggest farmers--the nut king, grape king and citrus queen--tell their story here for the first time. This is a tale of politics and hubris in the arid West, of imported workers left behind in the sun and the fatigued earth that is made to give more even while it keeps sinking. But when drought turns to flood once again, all is forgotten as the farmers plant more nuts and the developers build more houses. Arax, the native son, is persistent and tough as he treks from desert to delta, mountain to valley. What he finds is hard earned, awe-inspiring, tragic and revelatory. In the end, his compassion for the land becomes

an elegy to the dream that created California and now threatens to undo it.

The 1619 Project 's lyrical picture book in verse chronicles the consequences of slavery and the history of Black resistance in the United States, thoughtfully rendered by Pulitzer Prize-winning journalist Nikole Hannah-Jones and Newbery honor-winning author Ren é e Watson. A young student receives a family tree assignment in school, but she can only trace back three generations. Grandma gathers the whole family, and the student learns that 400 years ago, in 1619, their ancestors were stolen and brought to America by white slave traders. But before that, they had a home, a land, a language. She learns how the people said to be born on the water survived. And the people planted dreams and hope, willed themselves to keep living,
